

Greening The Usonian Inn LLC

Thank you for joining the growing number of travelers who seek green accommodations. In 2009, The Usonian Inn became the first motel in the spring Green area recognized by Travel Green Wisconsin for implementing a substantial number of sustainable practices.

Our goal is to offer appealing lodging at good value, provide a healthy environment and protect our beautiful Wisconsin River Valley region.

- To help save resource and keep rates reasonable please let us know when you want staff to change linen (bed sheets) and towels, (it is suggested you use the same sheets if you stay 2 days or more);
- Please place the A/C on Energy Save mode when you plan to be gone for more then a few hour.
- Please check that the door and windows are closed when operating the A/C unit.
- Smoke only in the designated areas where ashtrays are provided.
- DO NOT CARRY the cigarette butts in the room. (tables by room 5 and 6 are in a non-smoking area)
- Join your fellow travelers in helping us recycle – use designated bins in the rooms and on premises, that will help us save time and stay green. All news paper, empty cans and bottles can be recycled by placing them in the blue bins provided.

Thank you to OUR Growing number of the Eco-Conscious Hotel Guests!

- **No Items from the Rooms Are to be Removed for Outdoor use or Off Premises at any time!**

IF WE DETERMINE THAT YOU ARE NOT RUNNING THE AC UNIT ACCORDINGLY AND ANY WINDOW IS OPEN AT THE SAME TIME, WE WILL WALK IN FOR ADJUSTING THAT.

Thank you!

Carolina Dursina and The Usonian Inn LLC Management Team
